Carli Kruse to Demonstrate at Art On Broadway Gallery

Art On Broadway's monthly artist demonstration is by Carli Kruse, glass artist, who will show how she creates glass beads using the electroform process, at Art On Broadway, Sunday, April 21, 2013, from 1:00 pm to 3:00 pm.

Kruse explains, "Electroforming is using electric current to place copper or other metals on objects. It is sort of like bronzing baby shoes! I place the bead in a solution along with copper anodes, and run electric current through the beaker. Where I have put a special copper paint, copper moves through the solution from the anodes to the bead, creating an organic application of copper on the surface of the bead." Art On Broadway's monthly Sunday demonstrations are free and open to the public and offer insight to the artist's creative process.

Located at 12570 SW Broadway Street, Beaverton, Oregon, Art On Broadway is within walking distance of the Max stop at Beaverton Round and just a few doors west of the Beaverton History Center. Open Tuesday through Saturday 11:00 a.m. to 5:00 p.m. Phone 503-601-3300 for more information or go to <http://artonbroadway.net/>
