Discussion:

Review of applications:

- *Beaverton Holiday Bazaar:*
 - Discussion: Raises question if this event supports arts at the school. Does the sale of art in itself promote the arts? Are they using local artists and students' crafts as sale items or are they selling work brought in primarily from mass-produced outfits? Would have preferred that the application spelled out more explicitly how many students and local artists would be given space versus out-of-region vendors.
Recommendation: Fund this recipient. All in favor, none opposed.
- *Curvy Chic Closet:*
 - Discussion: Is there enough 'art' in this event? After discussion and re-review of the application, the fact that multiple independent designers, beauty school students, and photographers are involved elevates this event to an 'arts' event.
Recommendation: Fund this recipient. All in favor, none opposed.
